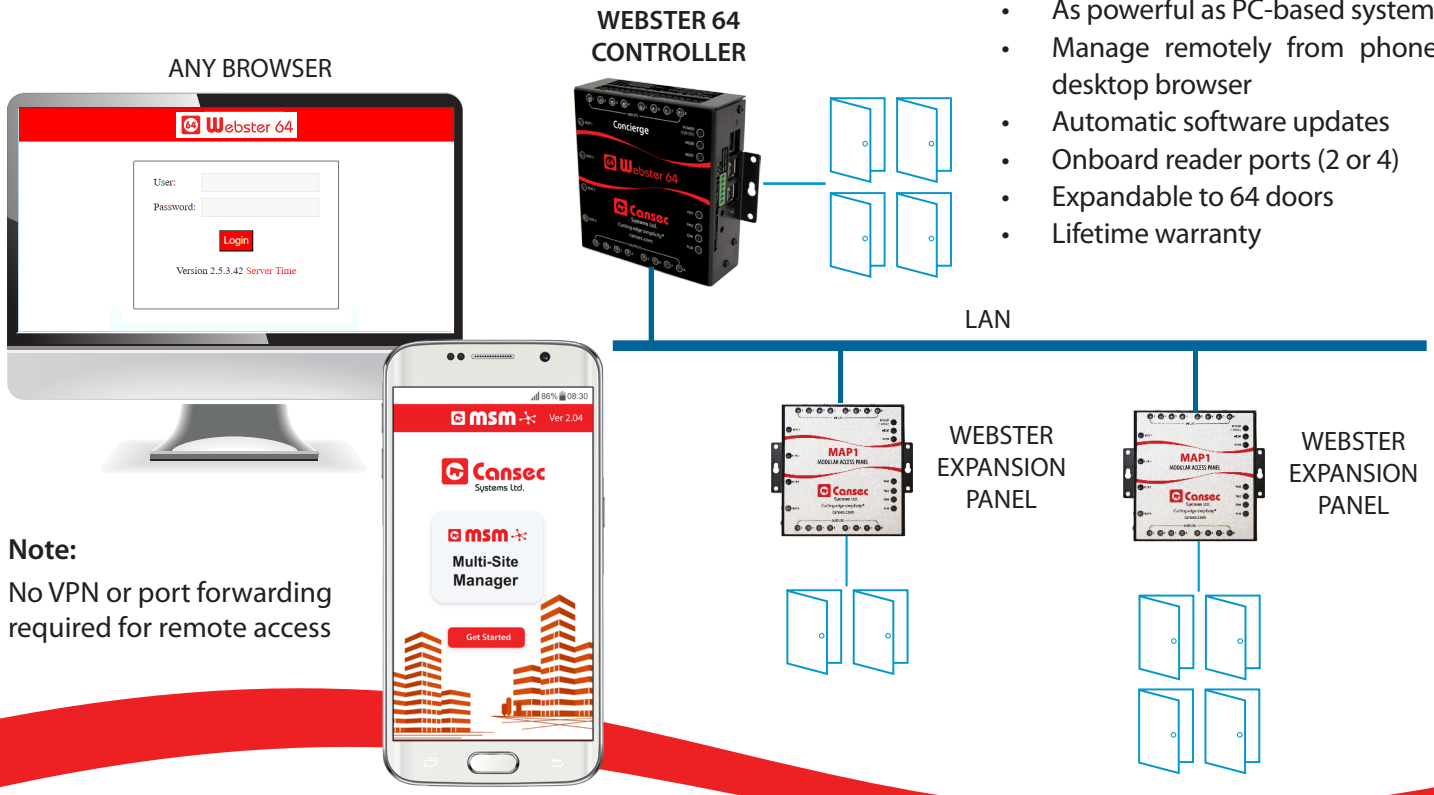
- Lifetime warranty



Note:

No VPN or port forwarding required for remote access

Requires Absolutely No Computer or IT Knowledge!

Access control does not have to be complicated to be powerful and expandable! Webster 64 is a browser-based access control system based on Cansec's popular Webster system, but now offers expandability of up to 64 Doors.

The Webster 64 Concierge Controller is the heart of the system, and it is available in either a 2 Door or 4 Door Configuration. To expand the system, simply add 2 or 4-door Expansion Panels as required.

We know it's important to get in and out of a job quickly - time is money after all. Finding a suitable computer at a customer site can be time-consuming, requiring consultation with the IT Manager or other staff who fulfill this role. With Webster Concierge, there's no software to install. Cutting Edge Simplicity at its best!
